

The Best
of Both Worlds

SEALVER

2021

Thanks to our compatibility kits for each jet ski brand and our boat buckle strap system, the Wave Boat is compatible with most Sea-Doo (except Spark), Yamaha and Kawasaki Ultra and 15F models.

This patented system ensures that the jet ski fits into the boat perfectly and remains in place, preventing any cavitation. You would like to switch jet ski models or brands while keeping the same Wave Boat? No problem. Simply change your compatibility kit.

Why should I get one?

The Wave Boat is not just a boat; it is a boat propelled by a jet ski. While traditional boats are propelled by a classical boat engine, the Wave Boat is a real adrenaline machine. It takes only a few seconds for you to free your jet ski from the Wave Boat and to let all the power and handling of your jet ski do all the talking.

Where can I use it?

The Wave Boat allows you to access areas where the jet skis were once prohibited. With the Wave Boat, expand your playground from the sea to inland waters. No matter where you are, you can switch from a family activity to a sport in a few seconds. Designed as a boat in and of itself, the Wave Boat floats perfectly without a jet ski.

Does it have a propeller?

Since it is turbine propelled, the Wave Boat offers unparalleled boating comfort, the safety of a propeller-free engine, low draft, immediate power, and incomparable manoeuvrability.

Your jet ski

How is it propelled?

Newton's Third Law answered this question before we did. It is the reaction between the force of impact of the water exiting the turbine into the air and the surface of the water that propels your jet ski. The engine load is the same with or without the Wave Boat; only the dynamic of your boat varies.

WB 444

White Sharp

Since it is easy to tow, owing to its compact size and light weight, the 444 White Sharp is simple and handy. It is the best choice if you want a real boat with the best value for your money!

White hull

Black Wake

With its wakeboard tower and excellent power to weight ratio, regardless of the engine, the 444 Black Wake is for thrill seekers.

WB 444

The brand-new model from the rigid line, the 444 is handy, compact and handles well. It seats up to five people and boasts storage compartments in the front and back, which is ideal if you are going on a picnic or need to store your water toys. With its sharp hull that cuts through choppy waters, it is nearly manoeuvrable as a jet ski. This model is perfect for practising water sports with friends.

WB 525

Designed for up to 6 people (boat and jet ski combined), the 525 is a family boat. With its two rear sundecks and front removable table (ideal for four to six people) it is perfect for fun outings with family and friends.

You can use the 525 at sea as well as in fresh water, where you will appreciate its versatility while practising towed water sports.

WB 656

It is the most luxurious model of the Wave Boat line. Spacious and user-friendly, it has all the advantages of an open deck. It boasts a wide space in the front, a powerful look, a high bow, and above all, a design dedicated to the comfort of its seven passengers.

It is the perfect model for outings at sea, a true water park allowing you to switch from jet skiing, to wakeboarding, to diving, to relaxing in seconds!
